Panel discussion: Taking the gloves off

(All participants should be seated by 13.55 to allow for a prompt start.)

A provocative debate focused on business implementation in the decades ahead. Statement – **Business is ready, able and willing to move towards a low-carbon economy.**

What is needed for business to achieve business unusual and make a difference to the climbing emissions curve? Can it be done in time, can it be done alone? What role will developing country businesses have in this future economy? What differences will occur in the global business landscape? What is needed to get new technologies on stream, and how do we speed up innovation.

The panel will be kicked off through input from the workstreams and will bring in the views of CEOs and high-level participants in an interactive debate.

Moderator

- **Nik Gowing**, International journalist and broadcaster

Invited panelists

- **Ola Alterå**, **State Secretary**, Ministry of Enterprise, Sweden
- **François Auque**, CEO, Astrium
- **Niels B. Christiansen**, President and CEO, Danfoss

AGENDA

Friday, 11 December 2009

Confederation Danish Industry, D.I.
H.C. Andersens Boulevard 18, Copenhagen

7.30 **Registration** opens
Copenhagen
ground floor

9.00 - 9.45 **Opening plenary: Let's get moving**
Copenhagen
ground floor
(All participants should be seated by 8.55 to allow for a prompt start.)

Business is committed to a low-carbon economy, compatible with development paths and strong economic growth, while being sensitive to the vulnerable. But how will this happen?

Smart business recognizes that it must be out in front. Taking action is important to business and climate change. What is needed to create transformation of such scale and in such a timeframe?

The opening will set the pace of the day, with business being challenged to play their part as a solution provider in a post-Copenhagen world.

Moderator

- **Nik Gowing**, International journalist and broadcaster

Welcome

- **Hans Skov Christensen**, Director General and CEO, Confederation of Danish Industry

Panelists

- **H.E. Connie Hedegaard**, Minister for COP 15, Denmark
- **Yvo de Boer**, Executive Secretary, UNFCCC

The discussion will open up to the audience, led by **Bjorn Stigson**, President, WBCSD and **Jean Rozwadowski**, Secretary General, ICC and aims to create momentum to drive the workstreams.

Chris Tuppen, Chief Sustainability Officer, BT Group

As Chief Sustainability Officer, Chris Tuppen is responsible for all aspects of BT's sustainability strategy and the issues that entail. He frequently engages with customers, investors, regulators and other strategic stakeholders, and is the focal point for BT's work as a sustainability partner to the 2012 Olympic and Paralympic Games. In parallel to this extensive role, Chris continues to represent BT on a number of prominent bodies. He has served on the boards of CSR Europe and of the US charity, Business for Social Responsibility. He co-chaired the Global Reporting Initiative's measurement working group and chaired the Global e-Sustainability Initiative and the European Telecommunication Network Operators Association's environmental working group. Chris was also co-editor of SMART 2020, a report that looked at how, where and to what effect ICT could be used to enable a low carbon economy. Currently, he is a member of the Executive Board of the Prince of Wales' Accounting for Sustainability Forum and the Council of AccountAbility, an international membership organisation committed to enhancing social and ethical accountability. In January 2008, Chris was named by a special Guardian newspaper panel as one of the 50 people who could save the planet from climatic disaster. Others named in the list included Nobel laureate Al Gore and the German Chancellor, Angela Merkel.

Henkel

A Brand is a Friend

Christian-André Weinberger

Corporate Senior Vice President and Global Chief Marketing Officer, Laundry/Home care, Henkel

Christian-André Weinberger is the Corporate Senior Vice President and Global Chief Marketing Officer Laundry & Home Care at Henkel in Düsseldorf. The 42-year-old is therefore responsible for the global strategy of the Laundry & Home Care business sector which makes up some 32 per cent of Henkel's sales.

Weinberger is the official representative of the Laundry & Home Care business sector on Henkel's Sustainability Council, which is the global decision-making body with responsibility for the company's sustainability activities.

Born in Austria, Weinberger started his international career in 1980 in the US in the financial services industry before moving to the American consumer goods manufacturer Procter & Gamble in 1992. There he held a variety of international marketing posts in the South American and European headquarters in Caracas/Venezuela and Geneva/Switzerland and also in Vienna/Austria. Weinberger laid the foundation for his consciously global focus right back during his first degree at the University of Economics and Business Administration in Vienna by opting for a number of foreign placements. The economics graduate was rewarded for his proven expertise with, for example, an MBA scholarship to Curtin University of Technology in Perth, Australia and a further MBA scholarship to the University of Illinois, USA.

Dennis E. Welch

Executive VP – Environment, Safety & Health and Facilities, American Electric Power

Dennis E. Welch is executive vice president, Environment, Safety & Health and Facilities for American Electric Power. American Electric Power is one of the largest electric utilities in the United States, delivering electricity to more than 5.2 million customers in 11 states. He leads all of AEP's environmental, safety and health activities, including compliance with all federal, state and local regulations, as well as federal and state public policy initiatives and advocacy. In addition, he has responsibility for forestry, real estate transactions, corporate travel and food services, mail print centers, facility management and other business services. Under his leadership, the company's commitment to sustainability advanced significantly, nationally and internationally, and is clearly defined in AEP's annual Corporate Sustainability Report. As a senior officer of the company, he serves on the company's Executive Council. Currently, Welch serves as AEP's policy committee co-chair voting representative to the American Coalition for Clean Coal Electricity (ACCCE) Board of Directors and is AEP's primary representative to its Executive Committee. He also serves on the AEP Foundation Board of Directors and he represents AEP at the World Business Council for Sustainable Development. He is a member of the Ohio Environmental Health Science Advisory Committee. He also serves on the boards of the National Urban League, the Greater Columbus Sports Commission, Franklin Park Conservatory, the Conference Board and the Nationwide Children's Hospital Champions of the Community. Welch was previously president and chief operating officer of Yankee Gas & Yankee Energy System and chair of the Northeast Gas Association.
